Forum
Specification
Sheet.

Built for both individual focus and collaborative conversation.

Forum sofas placed facing one another form small, intimate meeting areas. When isolated, they provide a quiet space to think – a place of refuge in a busy office.

Crafted around the user experience, Forum provides ultimate support and seamlessly integrates into workplace environments. Carefully selected materials ensure low environmental impact, strength and durability.

The Forum range starts with a single, two or three seater.

Featuring a variety of low or high back sofas and booths with connecting media panel. Integrated tables and visual displays can be added for further functionality.

By combining comfort, flexibility and adjustability, Forum ensures that your workplace remains agile and resilient to evolving work styles and user needs.

The Forum booth is a place to meet, present and collaborate.

Featuring power and integrated work surfaces, Forum booths can be easily accessorised with displays to provide additional functionality.

The Forum booth is available in 2, 4 and 6-seater configurations to suit your space and needs.

Aspect Design.

**As furniture designers,
our user-centric approach
places people at the heart
of every decision we make.**

Applying 40+ years' of experience and craftsmanship, we create furniture to inspire and support people in their work every day. Manufacturing locally, and with full in-house design capability, we collaborate with interior designers, architects and clients to tailor-make environments.

We're here to support you in creating workplaces that encourage productivity, creativity and collaboration. High-performing spaces where high-performing people are empowered to do their best work.
