La Zitta
Specification
Sheet.

The La Zitta embodies timelessness, strength and versatility in one.

With timeless quality and design, La Zitta features ergonomic details and uses simple shapes to reference TON's traditional manufacturing processes. Allow this solid bent beechwood chair to speak for itself in your interior or alternatively, you can let it blend in, with your choice of colour finish: staining or full pigment.

La Zitta is compact, so it is suitable for smaller workspaces, but is also sturdy enough for busy environments.

The seat is available in smooth, exposed plywood option, upholstered or with a cane weave.

Designed by Alexander Gufler.

Born in 1979 in the Italian spa town of Merano, Gufler started his career by following in his father's footsteps as a jeweller, and studying jewellery-making in the German city of Pforzheim. However, during his studies his interest began to turn in the direction of product design, which he then studied at the University of Applied Arts in Vienna.

Since 2010, he has run his own studio in the Austrian capital, where he works with local and international clients. His design work highlights detail, simplicity and an in-depth knowledge of the materials and manufacturing processes. Products he designed have been exhibited at a number of international exhibitions and awarded prizes in prestigious design competitions.
