

Project.

aspect 

Rethink your space. Everyday.

The Project series is functional, modular, and made to move. It facilitates a new way of working, helping people visualise their thinking and create collaboratively.

We know space to think is in high demand. With the Project series, we've thought about the details so you can think about what matters.

Features include:

- Easily movable units on industrial strength wheels
- Functional, highly considered design
- A peg and board system that quickly multiplies wall space
- Customisable storage space
- High quality materials
- New Zealand design and manufacture
- Fast, easy assembly
- Minimal health and safety concerns with light-weight materials for the boards

Video-conferencing and presentations sorted

Made for group discussion

Designed to work around you

The Project series caters to a variety of needs, allowing you to assemble and reassemble the perfect thinking environment.

Designed, prototyped and trialled in workshop environments, the Project series gives you space to think — receding into the background and allowing you to focus on what matters.

A workpoint for one

No need to go far for your tea and coffee

Plenty of storage

Storage space is always in high demand. With the Project series, there's more storage space to go around, freeing up head space.

Multiply wall space

Turn one wall space into a whole lot more with the Project board and peg system. Or better yet, create walls where there weren't any previously.

Project series components are built to last. The robust, considered design will withstand repeated reassembly and countless moves.

Lightweight

The unique, cross-laminated cardboard construction of the boards creates a highly durable, yet lightweight product – effortless to move and with minimal health and safety concerns.

Made for each other

All units within the Project series are modular, intentionally designed to fit together seamlessly.

Plug-and-play

Power points and USB charging points can be added to units, making it easy to connect technology such as video-conferencing equipment.

**One system.
Countless possibilities.**

Project boards

Dimensions:
1100w x 1700h

Available with cardboard, whiteboard or Autex Cube™ finishes.

* Whiteboards should be wiped with a damp or dry cloth only. Chemicals should not be used on the surface.

Expand the possibilities

Pair Project series furniture with the wide variety of accessories available from Aspect to further increase the utility of the range.

We believe that high-performing spaces enable high-performing people.

We place a person's comfort and ease-of-use at the heart of every product and system we create. Aspect designers and workplace specialists help you create a complete office furniture solution that will inspire and support people in their work every day.

Back in 1982, from a small factory in Auckland, Aspect founder and CEO Richard Simmons made his very first furniture prototypes. Driven by a passion for craft and beautiful engineering, he steadily grew the business and is joined today by his three sons and an expert team of designers, engineers and workplace specialists across New Zealand and Australia. Today, Aspect makes collections at the leading edge of international product design, technology, and workplace best practice.

Our focus on crafted, fully resolved commercial furniture means Aspect collections are trusted by some of the largest public and private organisations around Australasia. With nearly 40 years' experience designing and manufacturing collections for the modern workplace, our office furniture has a reputation for being robust, ergonomic, and comfortable throughout the working day.

We make over 70 per cent of our product range in New Zealand and Australia for true control over design, quality, customisation, and lead times. You receive products quickly and reliably from a quality-assured environment. In addition

to speed and flexibility, local manufacturing also creates a smaller environmental footprint.

Our team of product designers and workplace specialists help you define and select a furniture solution to meet your workplace aspirations and project budget using durable and environmentally sound products.

Direct access to our furniture designers means greater flexibility and control over your solution, as we work from our collections, adapt existing products, or design new components.

Aspect Furniture operates ethical and sustainable business practices. We have certification from Good Environmental Choice Australia (GECA) and Environmental Choice New Zealand (ECNZ), and our products are aligned to the Green Star rating tool. Independent certifiers regularly audit our premises under the ISO 9001 and ISO 14001 quality and environmental management systems. Similarly, the health and safety of our employees is vital to our success, and we are certified to the globally recognised AS/NZS 4801 and ISO 45001 occupational health and safety standards.
